Firmware Update Instructions (CV503, CV506, CV344, CV346, CV380)

Listed below are detailed instructions on how to upload new camera firmware to Marshall CV503, CV506, CV344, CV346, CV380 camera models.

1. Download and install “Camera_Firmware_Update_Tool” program to laptop or computer from Marshall website landing page *only*, corresponding with camera model you are updating.
2. Download and save Latest Firmware (.bin) file to your desktop pertaining to camera model you are updating - make sure you save it in a location that you can access later in Update Tool “Browse” firmware search.

****Make sure firmware FILE matches camera MODEL updating.**

3. Plug camera into power source, so Camera is ON and red-light indicator is illuminated.
4. Source a micro-USB cable (standard USB A-type to micro-USB B).
5. Plug in micro-USB side to the Service Port on rear panel of the Camera.
6. Plug in standard USB side to computer or PC used to update firmware.
7. Open the Update Tool and select COM port used and push **OPEN**.
8. Push Browse button to find firmware “.bin” file downloaded to your desktop and select the firmware file.

****Make sure firmware FILE matches camera MODEL updating.**

9. Start firmware update by pushing **Start** and firmware will start updating.
10. When update is completed it will show 100% complete in progress and **UPDATE FINISHED** below progress line.
11. Remove USB micro cable from Service Port on rear camera
12. Please note on the first reboot after firmware update, there might be no images on screen for about 1 minute while it’s booting new firmware.
13. Leave the camera on for 1 minute in normal operation.
14. If the firmware update is successful, an image will display onscreen.
15. Adjust camera back to preferred resolution from default (1080p30fps).
16. Check the firmware version from OSD menu under **SETUP > S/W Ver**, to make sure firmware version is the latest version attempted to upload.
17. If you have any questions, please feel free to contact Marshall Camera support at 800-800-6608.
